

PRESTIGE DRIVEWAY GATES

by Expert Security

Welcome

To the Expert bespoke gate brochure. Makers of the most magnificent hand crafted solid timber and steel gates.

To simply secure your vehicle at home, or even provide a little more privacy - our range of automated driveway gates will deliver exactly what you require.

Available in a wide variety of materials – including wrought iron, aluminium and a choice of hardwoods – all products in our collection are designed, fitted and maintained to your specific requirements.

We offer our award-winning services to clients throughout the UK. Always using the very latest technology, our excellence in security solutions has led to us being the number one choice for many high-profile clients.

We would like to thank you for giving Expert Security UK the opportunity to provide you with a quotation for your bespoke driveway gate project.

GATE SAFETY COMPLIANCE

All our electric gate systems comply with BS/EN 12453 (the current legislation all automated gates must comply with). Trained experts carry out full risk assessments.

We install as standard a number of safety devices including photocells and safety edges. Force Test, CE Mark and Technical files are also completed giving our clients peace of mind their gate system is efficient and safe.
